A WORLD WITHOUT MALARIA

Prevention

Cover water barrels, cut grass in ponds, remove garbage and pots & pans.

A WORLD WITHOUT MALARIA

Malaria is ONLY transmitted through mosquito bites.

A WORLD WITHOUT MALARIA

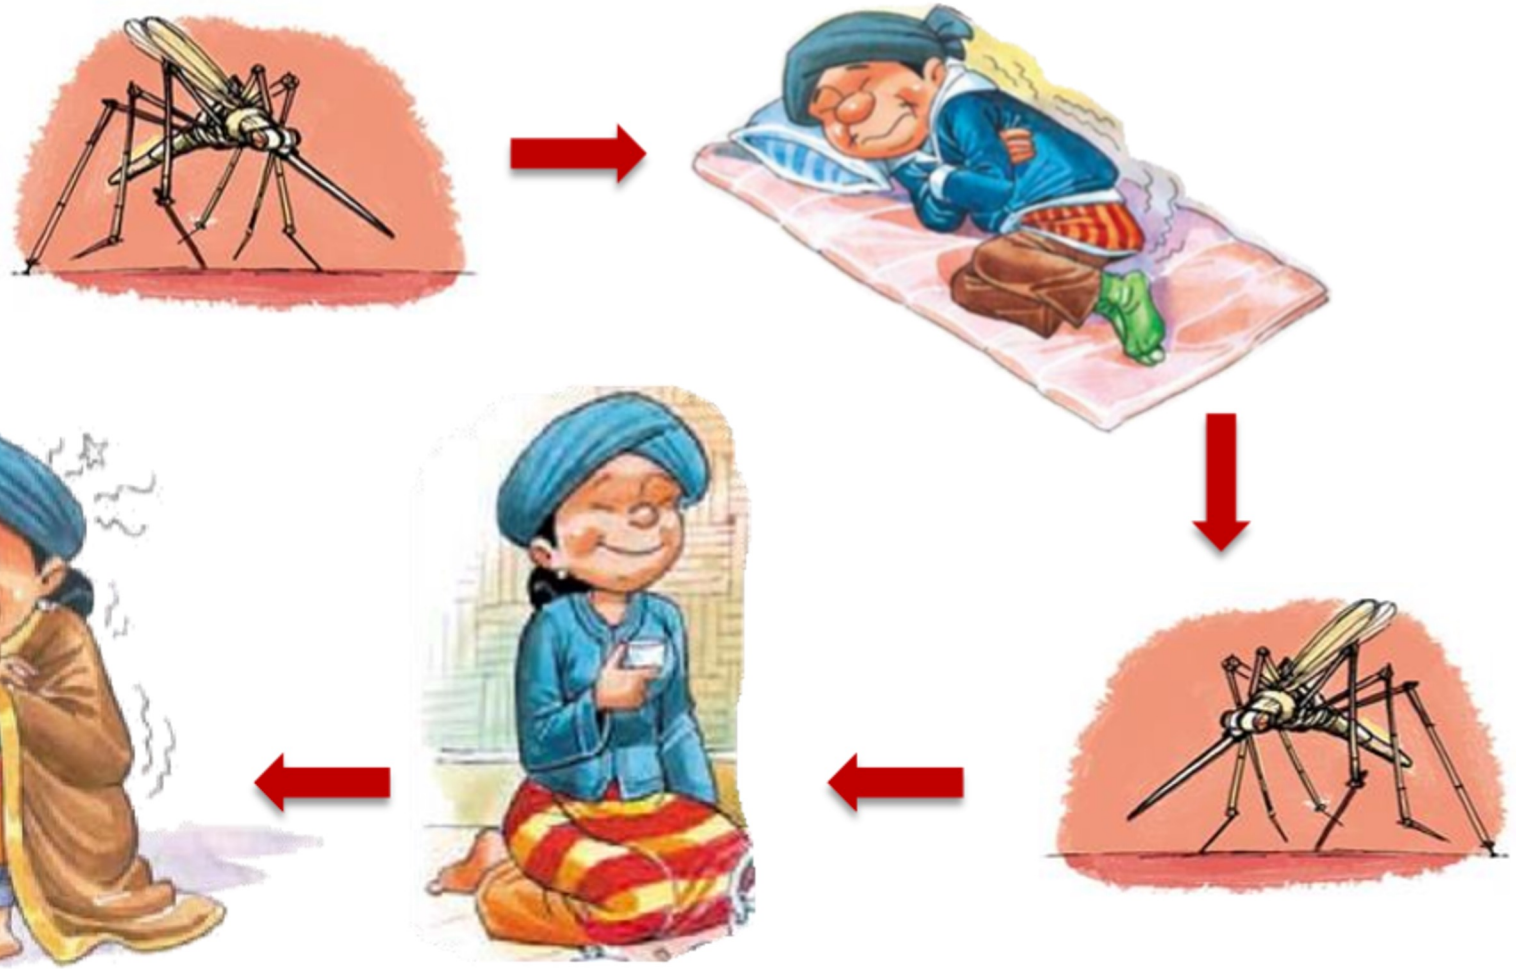

Prevention

Always sleep under a mosquito net. Wear long sleeves and long pants in the morning and evening

A WORLD WITHOUT MALARIA

Malaria cycle

A WORLD WITHOUT MALARIA

If you do not take all of the medicines,

you will feel better for a short time,
but the malaria can return.

A WORLD WITHOUT MALARIA

With malaria you have fever, chills, rigors and severe headache

A WORLD WITHOUT MALARIA

Malaria can only be cured by the correct medicine.

You must take the prescribed drugs at the right time for all the days given to you by a healthcare provider.

A WORLD WITHOUT MALARIA

You can die from malaria. Pregnant women, young children and sick people are especially at risk.

A WORLD WITHOUT MALARIA

What should you do if you have symptoms of malaria? Get diagnosis by bloodtesting.
